27. Which of the following comes closer to your view about efforts in some states to tighten voter laws, including requiring photo IDs and limiting early voting: (ROTATE)

a. These changes are a good idea, because they reduce opportunities for voter fraud and protect the principle of one-person-one-vote.

b. These changes are a bad idea, because they make it harder for legitimate voters to exercise their right to vote and are an attempt to gain a political advantage with those restrictions.
