In 2018, the Bipartisan Policy Center examined how states oversee federal and state funding dedicated to early childhood education, or ECE, programs. Now in 2021, we revisit each state system to understand enacted improvements and emerging challenges in state governance.

As the country adjusts to a new reality of work and home life amid the pandemic, American families are faced with the challenge of finding and affording quality child care, now more than ever. Early learning operates within a fragile business model, in which services cost more than most families can afford to pay. For this reason, states must administer funding with efficiency and effectiveness to ensure families are able to access programs and to maximize the reach of federal and state investments.

States are now responsible to distributing recent COVID-19 relief funding for child care—allocated through three successive relief packages by Congress in 2020—in addition to established funding streams that support multiple early childhood programs. The relief packages are intended to stabilize the fragile system that challenged access to affordable, reliable care. State governments are tasked with coordinating and combining the many different ECE funding streams allocated to them.

For all but one federal program, governors have wide discretion with regard to the administration and coordination of early childhood funding. The Bipartisan Policy Center set out to re-examine the issues of state governance, coordination, and integration by reviewing how states are meeting requirements set by federal statutes and agencies, as well as how states are capitalizing on the opportunity to create efficiency through their governance structures.

With this in mind, BPC is making recommendations at the federal and state level with an eye towards further reducing duplication and improving results for families. These recommendations are summarized in the full report. The following summarizes the findings for Rhode Island.

More state data, including funding levels and demographic information, can be found at https://bipartisanpolicy.org/report/national-child-care/.

**STRENGTHS OF RHODE ISLAND’S EARLY CARE AND EDUCATION SYSTEM**

- Rhode Island’s Quality Rating and Improvement System (QRIS) is mandatory for providers receiving subsidy, which ensures quality of care for all children.

**RECOMMENDATIONS FOR RHODE ISLAND’S EARLY CARE AND EDUCATION SYSTEM**

- Increase efficiency and cost-effectiveness of monitoring and oversight by aligning the administration of the Child Care and Development Fund (CCDF) with state Pre-K and the Child and Adult Care Food Program.
- Facilitate cross-agency communication to ensure seamless coordination and transition for IDEA Part C (infants/toddlers) and Part B, Section 619 (3-5 year olds).
- Improve program alignment and efficiency by colocating CCDF with state Pre-K and the Head Start Collaboration Office.
- Ensure the State Advisory Council for Early Education and Care, mandated by the Improving Head Start for School Readiness Act of 2007, is fulfilling its required activities, including conducting a statewide needs assessment on the quality and availability of early care and learning programs.
- Include licensing as the entry level for state QRIS to ensure program quality.
Rhode Island Office of the Governor

Department of Health and Human Services
- Office of Head Start
- Office of Child Care
- Office of Family Assistance

Department of Agriculture
- Food & Nutrition Service
- CACFP

Department of Education
- Office of Special Education and Rehabilitative Services
- Part B, Section 619
- CCAMPIS

State Advisory Council (SAC)
The Early Learning Council (ELC), appointed by the governor, facilitates the development of high-quality systems of early childhood education and care from birth to age eight to improve school readiness and success. ELC has developed a state plan to improve access to these services and to improve coordination and collaboration among agencies, organizations, and programs.

Quality Rating Improvement System (QRIS)
BrightStars has five levels with higher levels indicating higher levels of quality. The QRIS is statewide and participation is required for providers who accept subsidy payments and voluntary for all others.

State does not receive funding

Local Institutions
- Early Head Start-Child Care Partnership
  - Grants to local organizations

Flow of Federal Early Childhood Funds

Flow of Federal Early Childhood Funds: Rhode Island

Office of Instruction, Assessment and Curriculum

Local Head Start Programs

Key:
- Funding mandated for State Departments of Education
- Funding provided directly to local organizations
- State does not receive funding
- Partnership with funding provided by state department or agency
BPC Reviewed

BPC reviewed the following federally-funded programs to assess the efficiency and integration of Rhode Island’s early care and education system.

- Child Care and Development Fund (CCDF)
- Head Start
- Child Care Access Means Parents in School (CCAMPIS)
- Early Intervention Program for Infants and Toddlers with Disabilities (IDEA Part C)
- Preschool Development Grant Birth through Five (PDG B-5)
- Preschool Grants for Children with Disabilities (IDEA Part B, Section 619)
- Promise Neighborhoods
- Striving Readers Comprehensive Literacy
- Child and Adult Care Food Program (CACFP)
- Temporary Assistance for Needy Families (TANF)
- Early Head Start - Child Care Partnership (EHS-CCP)
- Race to the Top, Early Learning Challenge
