Ensuring that all Americans have equitable access to affordable, nutritious foods is foundational to our nation’s health, education, national security, and economic priorities. Typically reauthorized every five years, the farm bill is an omnibus multi-year law that governs an array of food and agricultural programs. In 2023, the nutrition title is expected to comprise 84% of total farm bill spending, mostly for the Supplemental Nutrition Assistance Program (SNAP), the nation’s largest federal nutrition program that provides EBT benefits to eligible, low-income individuals and families to purchase food at SNAP-authorized retailers. The 2023 Farm Bill provides Congress an opportunity to improve food and nutrition security through SNAP and other federal nutrition assistance programs authorized in the farm bill.

### MAKING THE CASE FOR IMPROVING FOOD AND NUTRITION SECURITY IN SNAP

**Key Findings from BPC/Morning Consult Poll**

- **Most current SNAP participants agree that benefits should be allowed to be used for hot, prepared foods (80%) and the purchase of groceries online (91%).**
- **A large bipartisan majority of current SNAP participants and adults support providing additional benefits for the purchase of healthful foods.**
- **More than half (58%) of current SNAP participants say states should be able to operate pilot programs to improve the nutrition of SNAP participants, as does a bipartisan majority of adults.**

In 2023, the **average SNAP benefit per person** is estimated to be **$186 per month**, or **$6.10 per day**, including the update to the Thrifty Food Plan and adjusted annually for inflation.
RECOMMENDATIONS

The Task Force makes the following policy recommendations for strengthening SNAP and other federal nutrition assistance programs authorized in the farm bill to improve food and nutrition security:

- Ensure that SNAP benefit levels are adequate to achieve a nutritious diet; that eligibility requirements and employment and training programs promote workforce participation and increased earnings without presenting undue barriers to SNAP participation; and that access to SNAP is expanded to all U.S. territories.

- Strengthen nutrition in SNAP by encouraging the consumption of nutritious foods through establishment of a fruit and vegetable cash value benefit (CVB), further expansion of and investment in the Gus Schumacher Nutrition Incentive Program (GusNIP), stronger retailer stocking standards, improvements to the SNAP-Ed program, better data collection, and demonstration projects.

- Use data matching, online purchasing, and other technology enhancements to improve SNAP access, integrity, and operations for participants and retailers.

- Modernize the food distribution programs, including The Emergency Food Assistance Program (TEFAP), the Food Distribution Program on Indian Reservations (FDPIR), and the Commodity Supplemental Food Program (CSFP) to improve nutrition, program access, and program operations.

- Improve food and nutrition security for priority populations through other food and nutrition assistance programs, including the Fresh Fruit and Vegetable Program (FFVP), Seniors Farmers’ Market Nutrition Program (SFMNP), Healthy Food Financing Initiative (HFFI), Public-Private Partnerships Program, and Micro-Grants for Food Security Program.

Members of BPC’s Bipartisan Food and Nutrition Security Task Force:

- **CO-CHAIR**: José Andrés  
  Founder, World Central Kitchen

- **CO-CHAIR**: Dan R. Glickman  
  Former USDA Secretary; Senior Fellow, BPC

- **CO-CHAIR**: Leslie Sarasin  
  President and CEO, FMI – The Food Industry Association

- **CO-CHAIR**: Ann M. Veneman  
  Former USDA Secretary; Senior Fellow, BPC

- **Rochelle Davis**  
  President and CEO, Healthy Schools Campaign

- **Rev. Douglas Greenaway**  
  President and CEO (retired), National WIC Association

- **Ihuoma U. Eneli, M.D.**  
  Director, Center for Healthy Weight and Nutrition, Nationwide Children’s Hospital

- **Claire Babineaux-Fontenot**  
  CEO, Feeding America

- **J. Nadine Gracia, M.D., M.S.C.E.**  
  President and CEO, Trust for America’s Health

- **Kristina Herrmann** (through Aug. 2022)  
  Director of Underserved Populations, Amazon

- **Molly Paffenroth** (beginning Aug. 2022)  
  Public Policy Manager, Federal Food Safety & Nutrition, Amazon

- **Lt. General Mark Hertling, DBA**  
  Advisor and Board Member, Mission Readiness

- **Navina Khanna**  
  Executive Director, HEAL Food Alliance
